

Broadway Avenue  
**CLOSED**  
over the Boise River  
January – Fall 2016

## Signal will be temporarily turned off at University Drive and Broadway Avenue

March 23, 2016

Early next week, the signal at University Drive will be turned off, and traffic through the intersection will be controlled by stop signs.

The **intersection of University Drive** and Broadway Avenue will temporarily operate as a **four-way stop starting this Friday (March 25)**.

The intersection will be controlled by a flashing red light for several days to prepare drivers for the upcoming change.

ITD anticipates the four-way stop configuration will remain

in place at University Drive and Broadway Avenue for approximately the next two months.

The temporary changes will give crews space to work on a signal that is being installed as part of construction for the new Broadway Avenue Bridge.

---

The Broadway Avenue Bridge is being replaced to meet today's design standards, as well as current and future traffic volumes.

Construction will be complete late this year.

**ITD reminds everyone to leave early, know your route and plan extra time for travel.**
